A supplier is required to have only one certificate of exemption form on file from each purchaser buying tax exempt. The supplier must exercise ordinary care to determine that the tangible personal property obtained under this certificate is for the purpose indicated. Suppliers failing to exercise such care will be held liable for the sales tax due on such purchases. For example, a supplier cannot accept a Certificate of Registration number bearing a "214" prefix since these are issued to a Contractor which has been deemed to be the consumer and is required to pay the tax at the time of purchase.
